Education

Vellore Institute of Technology, B.Tech CSE Core - CGPA 8.25

Aug 2022 – Present

Skills

Language & Framework: Dart, Flutter, Firebase

Projects

Horizon – Smart Home Automation (Mobile App)

Github

- **Role:** Full-stack Flutter Developer – led mobile app development, Firebase integration, and IoT communication.
- Developed cross-platform app to monitor IoT devices in real time via Firebase Realtime Database.
- Implemented environmental dashboards, workflow automation, and a custom voice assistant, boosting user engagement and improving safety response times.
- **Tech Stack:** Flutter, Dart, Firebase Realtime DB, Google Sign-In, Provider.

Vehicle Rental App (Mobile App)

Github

- **Role:** Flutter Developer – Architected app, executed BLoC state management, and designed UI/UX.
- Crafted cross-platform vehicle rental app with real-time search, booking history.
- Incorporated secure Firebase Auth flows with a 3s average login time, enhancing reliability and trust.
- **Tech Stack:** Flutter, Dart, Firebase Auth, Firestore, Firebase Realtime DB, BLoC.

Experience

Flutter App Developer Intern, AvanoX (Remote)

Feb 2025 – Apr 2025

- **Role:** Led a 3-member development team in the end-to-end creation of a grocery mobile application.
- Delivered and merged 10+ responsive screens from Figma designs, ensuring pixel-perfect implementation.
- Embedded Google Maps API for location search and implemented features like database search, pagination, and throttling, resulting in faster data retrieval.
- Connected Flutter frontend with backend via RESTful APIs and introduced BLoC state management, reducing redundant API calls.
- Enhanced team efficiency, improved performance, and streamlined communication during development.
- **Tech Stack:** Flutter, Dart, RESTful APIs, Google Maps API, BLoC, Figma, Postman

Achievements

- **IIITM Hacksagon'25 Finalist** – Recognized for developing a Smart Home Automation System with IoT integration.
